About Company

GIJISISteel is a **diversified steel and industrial supply company** proudly serving the **Construction, Engineering, Fluid Control, and Petroleum sectors**. From our strategic base in **Siyabuswa, Mpumalanga**, we support a wide range of clients across the **Nkangala Region** with reliable **products** and **consistently excellent service**.

Over the years, we have earned a strong reputation for dependability, ensuring that every order, whether for small components, specialized fittings, or large steel structures, is managed with precision, care, and efficiency.

Our business is built on the belief that quality materials and trusted supply partners form the foundation of successful projects. With this in mind, we are committed to maintaining high standards in both product selection and customer experience. We understand the unique requirements of our diverse client base and work closely with contractors, farmers, engineers, and industrial operators to provide tailored solutions that meet their specific needs.

At GIJISISteel, our operations are guided by a passion for sustainable development in both rural and urban environments. We continuously adopt modern industrial practices, prioritise safety, and invest in ongoing improvements to our product range and service delivery. This approach ensures that we remain aligned with evolving industry expectations and positioned as a dependable partner to every client we serve.

Vision, Mission & Values

Vision

Our goal is to become Mpumalanga's leading steel merchant by consistently delivering exceptional customer service across all core sectors. We strive to build long-term partnerships through reliability, quality, and innovation while maintaining a safe, empowered, and growth-focused workplace where our team can perform at their best and support sustainable regional development.

Mission

Our mission is to provide reliable, cost-effective products and services across the Construction, Engineering, Fluid Control, and Petroleum sectors. We are committed to delivering consistent quality, ensuring timely supply, and building sustainable partnerships with every client by prioritising trust, value, and long-term support throughout their projects and operational needs.

Values

- Respect
- Integrity
- Trust
- Accountability
- Customer satisfaction
- Sustainability
- Safety-driven work culture

Our Industries & Market Reach

GIJISSteel serves a wide network of industries with dependable **supply, professional guidance, and consistent product availability**. By supporting **Construction, Engineering, Fluid Control, and Petroleum clients**, we ensure each project receives the right materials on time. Our commitment to **reliability, expertise, and service excellence** strengthens every partnership and contributes to long-term operational success.

Industries We Serve

Construction

Supplying durable steel and essential materials that support structural integrity, building efficiency, and long-term project performance.

Light & General Engineering

Providing precision materials and components tailored for fabrication, mechanical projects, repairs, and diverse engineering applications.

Mining

Delivering robust steel products and reliable equipment designed to withstand demanding mining environments and operational pressures.

Agriculture

Supporting farms with practical steel solutions, fluid control essentials, and infrastructure materials for sustainable agricultural productivity.

Petro-Chemical

Providing compliant steel products, fittings, and safety-focused materials for fuel handling, storage, and industrial operations.

Rural Water Development

Offering infrastructure materials that enable reliable water access, improved community systems, and sustainable rural development.

Water Reticulation

Supplying pipes, fittings, and steel components essential for efficient water distribution, maintenance, and long-term reliability.

Fire Protection

Supplying certified components and durable steel products essential for fire safety systems and emergency response infrastructure.

Construction Division

Our Construction division provides a comprehensive range of structural and reinforcing steel products designed to support residential, commercial, and industrial projects. We ensure reliable supply, consistent quality, and expert guidance to help contractors build safely, efficiently, and in line with industry standards.

Key Construction Products

Reinforcing Bar

U-Channels & Lipped Channels

IBR Roofing Sheets

Corrugated Roofing Sheets

Flat Bars

Round Bars

Square Bars

Angle Irons

“Take You To
The Future”

Engineering Division

GIJISSteel supports the engineering sector by supplying high-grade steel, precision components, and specialist materials suited for fabrication, repairs, and industrial applications. Our reliable supply, technical understanding, and consistent quality help engineers complete projects efficiently and maintain strong operational performance across diverse environments.

Engineering Steel Products

Mild Steel Plates

Railway Steel Tracks

Hot Rolled Sheets

Steel Channels

Structural Columns

Welding Consumables & Equipment

We supply a wide range of welding materials and accessories, including:

Nickel Alloy & Stainless Steel Electrodes

Gas Metal Arc Welding (GMAW) Consumables

TIG / GTAW Filler Materials

Aluminum Electrodes

Brazing Rods

Gouging Carbons

MIG, TIG, MMA Equipment

Petroleum Division

GIJI Gas – A Division of GIJISteel

GIJI Gas supplies industrial, medical, hospitality, and special gases, as well as LPG cylinders and diesel solutions.

Products & Services

Liquid Petroleum Gas (LPG)

Supplying safe, compliant LPG cylinders and accessories for residential, commercial, and industrial fuel

Diesel (50PPM)

Supplying clean, low-sulphur diesel ideal for machinery, transport fleets, generators, and industrial fuel requirements.

Industrial Gases: Oxygen, Nitrogen, Acetylene

Supplying essential industrial gases for welding, cutting, fabrication, cooling, and various specialised engineering applications.

Special Gases: Refrigerants, Chemicals, Scientific Gases

Providing specialised gases for refrigeration systems, chemical processes, laboratory applications, and precise scientific operations.

Medical Gases & Therapy Equipment

Supplying medical-grade gases and reliable therapy equipment for clinics, hospitals, emergency care, and home treatment.

Beverage & Hospitality Gas

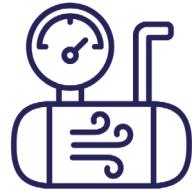

Providing quality beverage and hospitality gases for dispensing, carbonation, cooling, and efficient food-service operations.

Gas Equipment: Regulators, Hoses, Torches, Welding Kits

Supplying durable gas equipment and accessories designed for safe, efficient welding, cutting, handling, and industrial use.

Fluid Control: Valves & Accessories

Brass Valves

- Ball Valves
- Gate Valves
- Stop Cocks
- Gas Valves
- Foot Valves
- Pressure-Reducing Valves

Accessories

- Gaskets
- Bolts & Nuts
- Rubber Bellows
- PTFE Tape
- Hemp

We supply **durable** and **industry-certified** fluid control **valves** and **components**.

Cast Iron Valves

- Gate Valves
- Butterfly Valves
- Float Valves
- Check Valves
- Y-Strainers
- Knife Gate Valves
- Diaphragm Valves

Fluid Control: Pumps & Pipes

Surface Pumps

- Centrifugal
- Multistage
- Vertical & Horizontal
- Self-Priming
- Progressive Cavity
- Solar Pumps
- Pressure Boosting
- Swimming Pool Pumps

Borehole Pumps

- Salsub
- Mono Positive Displacement
- Climax Windmills
- SalSolar

Submersible Pumps

- Drainage
- Sewerage
- Dewatering
- Fountain
- Slurry Pumps

Pipes

- PVC Pipes
- Steel Poly Pipes
- Irrigation Pipes
